Green Leaf Construction begins Devereux School classroom upgrades

January 15, 2015 - Construction Design & Engineering

Green Leaf Construction recently began classroom upgrades at the Devereux School. The school provides highly individualized services to youth with intellectual, emotional, and behavioral needs. Devereux School's COO Tom Dube said, "Green Leaf has a firm commitment to the ongoing support of our community, and to organizations like Devereux. I have been proud to support Devereux not only as a donor and supporter of their program, but also as a design builder and construction manager for their facilities for more than a decade."

Green Leaf is looking forward to completing the classroom upgrades, which will enable Devereux to continue in the outstanding work for which the program is so very well known.
