Chapman Construction completes 11,000 s/f Creative Office Pavilion headquarters

February 19, 2015 - Construction Design & Engineering

To align with their recent re-brand, workplace consultants Creative Office Pavilion (COP) selected Chapman Construction/Design to manage the renovation of their design center headquarters. The 11,000 s/f project included a complete refresh of their showroom, conference & meeting areas, and executive offices. Chapman collaborated with COP's in-house design team and architects Silverman Trykowski Associates to create a multifunctional space for COP to work and showcase the various furniture and wall systems they represent.

Coordination of schedule, phasing, and safety was key on this project to ensure COP remained fully operational during construction.
