SAVE THE DATE: Transportation Transformation Conference: The Road to Change and Economic Growth - April 9

March 26, 2015 - Front Section

Communities are shaped by the transportation systems that serve them. As the Mass. economy continues to grow, both residents and businesses alike depend on a transit network that provides a variety of ways to get around. With one of the oldest transportation infrastructures in the country, the region is under pressure to create a long-term vision that includes new initiatives to enhance service and reliability.

Join NAIOP for this special conference featuring federal and state transportation officials and national experts to gain an in-depth understanding of some of the most pressing transportation challenges and innovative solutions being proposed.

Topics to be discussed include:

- * Trends that will shape the nation's transportation system over the next three decades;
- * The role of transportation in a growing Massachusetts economy;
- * New technology and other innovative solutions to consider; and
- * How other regions have developed long-term transportation plans
