April 16, 2015 - Construction Design & Engineering

Trinity Building + Construction Management Corp., is celebrating its 10 -year anniversary. Headquartered in Wilmington, Trinity is a general contracting and construction management firm with both a national and Canadian presence.

Established in 2005, Trinity is the realization of the lifelong dreams of its founders, Matthew Kilty, David Story and Paul Mancini. The three principals had each wanted to pursue their dream of business ownership in the industry they loved and knew the likelihood of success rose sharply with the combination of their talents. Although initially anchored in Mass., Trinity quickly expanded their geographic reach and developed a reputation for executing complex projects anywhere their clients needed them. This capability has allowed Trinity to build lasting relationships with companies such as Banco Santander, Union Sq. Hospitality Group/Shake Shack, J. Crew, Nike, Tesla Motors and Dick's Sporting Goods to name a few.

From the very beginning, Trinity has fostered a culture that has been at the heart of its growth and success. One critical aspect of this culture is recruiting, nurturing and retaining top-performing people in order to accomplish great work and sustain success. Trinity simply could not reach the level of growth it has without excellent people throughout all levels of the organization. Trinity currently employs over 50 staff members in two offices.

Trinity Building and Construction Management has been extraordinarily busy over the past few months. Exciting projects Trinity has recently completed include:

- * Banco Santander - The 40,000 s/f phased renovation of the Banco Santander corporate facilities in Manhattan included work on seven floors of an occupied building. a renovation of their office space in Cohoes for their New York team. Trinity is poised to make 2015 the most successful year yet with various multifamily, retail, corporate and restaurant projects already under construction and many more slated for spring 2015 starts.

"The past 10 years have been filled with achievements as well as challenges" said Paul Mancini, co-founder and executive vice president of business operations.
