Toto joins Tighe & Bond

April 16, 2015 - Construction Design & Engineering

Tighe & Bond hired Michael Toto to manage its mechanical, electrical, and plumbing (MEP) team. A senior electrical engineer with more than 21 years of experience, he has managed commercial, industrial and institutional engineering projects.

Toto has provided engineering services to numerous well-known industry giants and prominent institutions. His expertise includes the study, design, permitting, construction management, construction administration and start-up of numerous building and infrastructure facilities. His portfolio of projects includes all phases of engineering for electrical infrastructure. As a project manager, he has led many project teams during various phases of projects simultaneously, and has been the leader on several jobs with multiple owners during his professional experience.

"Michael is a welcome addition to our MEP team," said David Pinsky, president and CEO of Tighe & Bond. "His wealth of electrical engineering knowledge - and extensive involvement in the design and management of diverse projects - will benefit our clients greatly."

Toto earned his Bachelor of Science in Electrical Power Engineering from Rensselaer Polytechnic Institute. His professional affiliations include the Institute of Electrical and Electronics Engineers (IEEE) - Power Engineering Society, the National Fire Protection Association (NFPA), the Illuminating Engineering Society of North America (IESNA), and the Association of Energy Engineers (AEE).
