Curcio named chief operating officer of Perkins+Will

May 14, 2015 - Construction Design & Engineering

Perkins+Will has appointed Tyson Curcio as chief operating officer.

As COO, Tyson is responsible for business operations and project delivery success through oversight of firmwide practice management. Strong client service through efficient design, innovative project delivery, and technical excellence is at the core of his philosophy. As COO, Tyson leads the development and execution of the firm's business plan and promotes leading-edge project delivery methods to advance the firm's strategic objectives.

Tyson received a Master of Architecture degree from the University of Michigan and has dedicated his career to operations and project management leadership. His experience includes developing integrated project delivery processes and collaborative approaches which align design, management, and expertise in multidisciplinary, multi-office firms with a collaborative nature.
