What is your dream job: I have it now. After 25+ years of building a business from scratch with only \$2,000 to my name and no other income, to approximately \$200 million in assets under management and selling it, I now spend my working time using all that I have learned to help other businesses and individuals be more successful. Since I no longer have to work, I only work with the people and businesses I feel passionate about and know that I can make a huge difference for.
