Landry/French selected as construction manager for Maine Aviation Corp. headquarters

July 16, 2015 - Construction Design & Engineering

Landry/French Construction Company has been selected as construction manager for a new general aviation facility for Maine Aviation Corp.

Located on Westbrook St. the new 42,000 s/f facility will provide aviation services to the private, corporate, commercial, and general aviation community. The first floor of the two-story building will house a pilots' quiet room; pilots' planning room; visiting pilots' lounge; conference room; customer service area; waiting area; gym and locker rooms; catering kitchen; and restrooms. The second floor will house administrative offices; conference and break rooms; and open office area. The project also includes a two-bay hangar.

Construction began in June and is expected to be completed January 2016. The building was designed by Archetype Architects.
