RGB Architects continues to grow practice with four: Contes, Brakels, Hernandez and Love

May 12, 2017 - Rhode Island

Providence, RI RGB Architects, an architecture, project management, and interior design firm, continues to grow its practice. Additional architectural design staff joined the RGB team. These designers are currently supporting client projects in public safety design, commercial design, and educational design. Also, Frederick Love, AIA, is working with their team as a historic consultant.

Luis Contes, Assoc. AIA, joined RGB Architects as intern architect. Contes is currently working on renovation projects for area school districts and design for reconstruction of Roger Williams Park Carriage House.

René Brakels joined RGB Architects as a job captain. Brakels brings experience in residential, commercial, educational design, and urban planning projects completed in Europe. Brakels is currently designing commercial and retail projects for clients in several states.

Pedro Hernandez, Assoc. AIA, joined RGB Architects as an intern architect. Hernandez is currently part of RGB's design team for a new Public Safety Complex in North Providence.

Frederick Love, AIA, is working with RGB as a historic consultant. Love brings 20 years of experience in the field of preservation. Formerly a long-term employee of RGB, Love has worked as an independent consultant since 2001. His notable projects include Franklin Court in Philadelphia, the Rhode Island Supreme Court Building, Manchester Street Power Station, and Providence City Hall.
