Billerica, MA Newmark Knight Frank (NKF) completed a 110,684 s/f long-term lease renewal to Nuvera Fuel Cells LLC at 129 Concord Rd.

Nuvera Fuel Cells, a subsidiary of Hyster-Yale Group, Inc., is an alternative-power technology manufacturer of hydrogen supply and fuel cell power products. The firm located its headquarters within the 110,684 s/f facility in 2006 and approached NKF to assist with an early lease renewal.

“The market for class A office and R&D properties was limited and Nuvera wanted to secure a long-term solution for its current and future requirements,” said Richard Ruggiero, executive managing director in NKF’s Boston office. “Working with ownership, we were able to negotiate favorable renewal terms which allow for a tenant improvement allowance and base building renovations, as well as expansion options to include both office and manufacturing space for potential future growth.”
