Jewett begins const. of 22,000 s/f Terminal Buildings Improvement for Safety and Security project at Pease Int'l.

July 02, 2008 - Northern New England

Jewett Construction has begun the Terminal Building Improvements for Safety and Security project at the Portsmouth International Airport at Pease located on Airline Ave.

The project consists of renovations to 22,000 s/f of terminal space to improve the airport's capacity to handle incoming and traffic, which includes an addition of new incoming baggage handling equipment. Also included are renovations to some of the interior space to move TSA offices to accommodate increased passenger traffic. This fast-track construction is to be done without interruption to incoming and outgoing passenger traffic.

Design was provided by Hoyle, Tanner & Associates, Inc. of Manchester, NH and Fennick/McCredie Architecture, LTD of Boston, Massachusetts.

The project is scheduled to be complete by August 30th.
