Kaplan Const. completes campus expansion for Bellesini Academy

November 17, 2017 - Construction Design & Engineering

Lawrence, MA Kaplan Construction completed an expansion to the Bellesini Academy, an independent school supporting 100 students in grades five through eight. Kaplan provided design/build services for the addition.

The two-story, 5,800 s/f addition will provide a STEAM (science, technology, engineering, art, and mathematics) center for all students with a science lab, technology center, art center, movement center for yoga and dance, and an alumni lounge, as well as a hallway with four classrooms dedicated to the girls' program. The ground up construction, built on the site of a former rectory, was connected to the existing school.

Project team members included:

- Cornerstone Architects – project architect
- Feldman Development Partners – Owner's representative
- Ipswich River Engineering – Structural engineer
- Reid Mechanical Corp – HVAC
- Rice & Brouillard Electric Inc. – Electric
- Lynco Fire Protection Inc. – Fire protection
- Gaffny Plumbing – Plumbing.
