2017 Annual Review: Karin Patriquin of Patriquin Architects

December 29, 2017 - Front Section

What was your most notable project, deal, or transaction in 2017? We were very fortunate to work on a number of projects this year. One that is ongoing and very exciting is the new Slate School in North Haven, construction beginning in early 2018. This will be a new nature-based independent school located on a 25-acre nature conservancy. We have designed the various buildings to high sustainability standards, to encourage stewardship, inquiry and curiosity.
