2018 Women in Construction: Marci Dineen, Federal Concrete

March 30, 2018 - Spotlights

Marci Dineen, Journeyman Carpenter/Steward, Federal Concrete

Advice/Keys to Success: If offering advice or any keys to success I would like to start by saying don't take yourself so seriously. Women are often times their own and worst critics. Believe in yourself and know that everybody starts out as an amateur. If you fall down get up again and shake it off. Lastly, HAVE FUN, life is short and having a sense of humor will help you through just about anything! Thanks for the opportunity to be in your great publication!
