Online training - Cyber Exposure - What you need to know to protect your business

May 18, 2018 - Construction Design & Engineering

Thomas Ciano, USI Insurance

Boston, MA Online Training - "Cyber Exposure - What You Need to Know to Protect Your Business"
Wednesday, June 27 | 12:00 - 1:00 pm

In today's world, you can't avoid technology and the internet. On a daily basis, you use your cell phone, email and likely much more, and the more you use technology, the more you are exposed to cyber attacks. Commonly known as cyber liability insurance coverage, CLIC coverage can help you mitigate your exposure. Thomas Ciano, AFSB senior vice president practice leader, management & professional services USI Insurance Services is a practice leader with ASM associate member, USI Insurance Services, and an insurance veteran with more than 30 years of experience. His primary responsibility is to provide technical expertise to help clients address complex coverage issues, and one of his areas of specialty is cyber liability and insurance. It is critical that you know how to identify your areas of risk and determine

- Risks you should avoid
- Risks you may want to accept
- Risks you can control, and
- Risks you should try to mitigate and transfer

In this 60-minute webinar, Ciano will help you recognize and limit your cyber exposure and liability to help protect your business.
