Boustris & Sons, Inc. has been offering strategic solutions for businesses since 1989

October 02, 2007 - Owners Developers & Managers

Boustris & Sons Inc., a full service electrical contracting company serving all of New England, was established in 1989 to offer strategic solutions to businesses that deliver products and services via complex and costly infrastructure. From the completion of a single project to the maintenance responsibilities, Boustris & Sons provides the range, depth and quality of services that enable property managers, developers and general contractors to focus on their core business.

Vital for business

Property managers, developers and general contractors remain challenged by intense competition and continuous technology change. These organizations need to solve problems critical to their growth. Boustris & Sons Inc. offers these organizations a strategic partnership focused on utilization of key assets and expertise.

Vital for people

Power and life safety equipment are two of the building blocks of modern life. Whether it is routine maintenance activities or emergency work to restore service following storms or other major disruptions, Boustris's efforts help to ensure that the lights stay on, and the life safety equipment remains available.

Vision

From the very beginning, our vision has been to achieve long-term successful growth, which we continue to make good upon. We will continue to pursue our visionary objective by delivering continuous quality and on-time performance. We understand what it means to be on top and once we are there, we intend to stay for a very long time.

Our vision of a long-term successful growth can only mean positive results for our clients. Every project large or small, is an important building block in our future, and satisfied clients make the best customers. The opportunities available within the electrical, fire alarm and building maintenance industries provide a basis for continued growth. In order to sustain this growth, Boustris & Sons Inc. has identified several critical themes:

- * Flexible organization
- * Added value to every customer
- * Best in class service

Boustris & Sons Inc. is the local provider of choice across the electrical, fire alarm and building maintenance market through the development of a highly flexible organization that provides best-in-class services and valued-added solutions to its customers
