Tighe & Bond expands to 11,000 s/f in Westwood

September 07, 2018 - Front Section

Westwood, MA Tighe & Bond, a Northeastern leader in engineering and environmental consulting, relocated into a larger office suite at its Eastern Mass. location. The new space at One University Ave. (Suite 100) is adjacent to Tighe & Bond's former office in the same building and allows the firm to keep pace with staffing growth aimed at better serving Eastern Massachusetts and greater Boston area clients.

Tighe & Bond opened its original 4,800 s/f workplace in July of 2015. Staffed initially with a team of six, Tighe & Bond's workforce at this location has grown to 30 employees in less than three years. The firm's new 11,000 s/f office will support further growth and can accommodate 58 employees. The new space also offers a more collaborative working environment, conference rooms, and expanded video conferencing capabilities.

"Having an office in Westwood has allowed Tighe & Bond to respond more readily to our Eastern Massachusetts and Greater Boston area clients. It is important that this office can also accommodate continued growth in both staff and services. By expanding our engineering, environmental and GIS consulting capabilities in Westwood, we can continue providing streamlined and efficient services to Eastern Massachusetts clients," says Tighe & Bond's President and CEO, David Pinsky. "As we continue growing our business, we also look forward to tapping deeper into the talented work force available in this area," he adds.

In addition to better serving its Eastern Massachusetts clients, Tighe & Bond is continuing its plan for geographic growth to further reinforce its position as a Northeast leader in engineering and environmental services. The firm recently opened a new office in Providence, Rhode Island, which is also close to its broad base of Southeastern Massachusetts clients.
