What recent project or transaction are you most proud of? My involvement with the redevelopment of the Alewife area in Cambridge has been a strong influence, beginning as a wetland scientist providing permitting strategy, and continuing over the years with an amazing team of developers, lawyers, planners, engineers, and surveyors. I have seen not only the redevelopment of the former Arthur Little property, but also projects along Cambridge Park Dr. I am most proud that as I have transitioned my responsibility at BSC as chairman of the board now, my involvement has transitioned to younger professionals within BSC and our services now include climate adaptation strategy and ecological restoration.
