Jackson Walnut Park Schools: This project benefits students and faculty in many ways, which is always an outcome we are proud of. This new space also complements the school's historic landmark building—an 1867 Second Empire mansion—with a contemporary design that promotes 21st Century learning. The 10,346 s/f center houses a new full gymnasium, theatrical stage, expansive culinary kitchen and classroom space. The project also included an outdoor class and playground space, as well as landscaping beautification across the campus.

Additionally, we are excited to have secured projects for SRL Medical and Hamori Surgical Suite, both which will continue into 2019, and will continue expanding our expertise and efforts in the academic, healthcare, retail, corporate, and community markets.
