City of Warwick, RI

The diverse commercial real estate base of properties available for sale/lease and opportunities for redevelopment on existing parcels in Warwick all point to our continued economic growth. In recent months, we have seen well-established companies decide to relocate to Warwick because of the wide range of options available. In addition, the number of small businesses, which are the backbone of our economy and make up between 75-80% of our business base, are also on the rise. It is clear from this that many developers and investors realize Warwick is a great location for their business to thrive and succeed.
