Denron creates scholarship for ACE Mentor Program

April 05, 2019 - Northern New England

Manchester, NH Denron Plumbing and HVAC, LLC, one of Northern New England's leading mechanical subcontractors has established a scholarship program for eligible graduating students of ACE NH.

The ACE NH program mentors high school students and provides a full array of learning experiences utilizing industry professionals (mentors) and current construction projects. A pilot program is currently in full swing at Oyster River High School. Next year, ACE NH will be extended to other school districts in the state.

With the shortage of workers in the state and the escalating costs of higher education, ACE NH offers an alternative for many young men and women. ACE NH is currently looking for industry professionals (mentors) to join the ACE Mentor Program.
