CCIM Institute's work shop - August 21-22nd

August 07, 2008 - Front Section

Due to the success of this program across the country, space is extremely limited!

Developed exclusively for CCIM and offered through the Robert L. Ward Center for Real Estate Studies, this two-day Advanced Negotiation Workshop is designed to equip you with negotiation skills unmatched in the commercial real estate industry. Session topics include:

- *Â Advanced negotiation theories
- *Â Stakeholder interest analysis
- *Â Tactics on presenting offers
- *Â Strategies to client acceptance
- *Â Understanding risk and imposing consequences
- *Â Ways to present counter offers and closing techniques
- *Â How to create negotiation frameworks
- *Â Techniques designed to mediate "difficult people"

You'll also receive a complimentary copy of the CCIM Negotiating Model software, an interactive program that assists you in achieving your negotiation goals. This software, valued at \$250, will be used as part of the two-day workshop and will also serve you as a reference tool for future negotiations.

"I found CCIM's Advanced Negotiation Workshop to be one of the best courses I have taken in 30 years in the real estate business. As a matter of fact, I used some of the basic principles on my first day back to work after the class. I really feel that I was able to use the information learned to solidify my position, while better understanding and identifying the needs of all parties." said Jerry Jackson, CCIM

"CCIM's Advanced Negotiation Workshop is valuable because of the practical application experience it provides. Anyone who negotiates on a regular basis, regardless of longevity or skill set, will benefit from the hands-on practice this course provides. I highly recommend this workshop!"

"CCIM's Advanced Negotiation Workshop provides a tool for actually putting into practice an interest-based negotiating plan instead of using the high-low game that so often is adversarial, competitive and results in bruised feelings and lost relationships. I came away positive about what I learned and its applicability to my work-a-day world."
