Harvey Performance selects Landry/French for 76,887 s/f

June 21, 2019 - Construction Design & Engineering

Gorham, ME Landry/French Construction has been selected as construction manager for a new high-tech manufacturing facility for Harvey Performance Company.

The new facility will be built at the 62-acre, former harness horse racing track on Narragansett St. and will replace the company's space of their Helical Solutions Facility in the Gorham Industrial Park.

Phase 1 of the project will include a single-story, 76,887 s/f building on a 14-acre parcel with 172 parking spaces. Included in the new space will be 19,000 s/f of office space, 50,000 s/f of high-tech machining space, and 10,000 s/f of support space. Phase 2 will add another 36,000 s/f and 115 parking spaces.

Harvey Performance manufactures high performance machine tools.

Construction is expected to start July 2019 with an estimated completion summer 2020.

SMMA designed the facility.
