Newport, RI The American Council of Engineering Companies of Rhode Island (ACEC-RI), a professional association representing 43 engineering firms doing business in Rhode Island, named the recipients of the 2019 Engineering Excellence Awards. These awards recognize engineering achievements that demonstrate a high degree of merit and ingenuity and contribute to the infrastructure of Rhode Island and the surrounding communities. The award titles are designed in recognition of the Rhode Island State Flag and commemorate the state's engineering history. The following awards were presented at the ACEC-RI Annual Meeting by executive director Marcel Valois.

The awards luncheon was held at the O'Club, the Officers Club at the Newport Naval Station. The keynote speaker was Linda Bauer- Darr, president and CEO of ACEC. She gave an update on the status of the national initiatives being undertaken by ACEC to demonstrate the impact that engineering has on communities and the advocacy that is being done for national infrastructure improvements. She encouraged attendees to be cognizant of the need for firms to clearly explain projects and the innovative practices that are improving the state's communities.
