2020 Women Who Build Spotlight: Hajar Aldouri, TSKP Studio

February 21, 2020 - Connecticut

Hajar Aldouri, Architectural Designer at TSKP Studio

How many years have you been in your current field? 3 years

What are you planning to do differently in 2020 to have a positive impact on your career? Design with full awareness of the impact on the environment. Our design profession has always impacted our built environment both positively and negatively. It is time to steer our attention to global issues and act responsibly to make only positive impacts.

What would you tell your daughter about entering this profession? I would tell her that she can easily portray her personality, attitude and emotions in a building design. Buildings can communicate messages and ideas from the people behind them.
