Seyon Management launched as provider of comprehensive property services

March 06, 2020 - Owners Developers & Managers

Boston, MA The Seyon Group (Seyon) has formed Seyon Management (SM), a nationally focused third-party provider of comprehensive real estate services. SM provides accounting, property management, construction management, asset management, and corporate advisory services for a diverse set of real estate owners and investors of robust real estate.

“Driving value and returns is at the heart of what we do,” said Bryan Blake, managing partner Seyon. “This service platform has developed from the core competencies that have enabled us to succeed at Seyon, and now we can use that to help optimize asset performance and investment returns for a larger set of industry participants. This gives us the ability to positively impact each investment at every level.”

Having already launched for Seyon’s existing partners, SM is set to roll out to a larger set of sophisticated institutional investors with a goal of offering a high rate of operational efficiency. The unit will be led by Greg Hughes, a seasoned industry executive who joined Seyon in September of 2019.

“We recognized a void in the property service industry, and we knew that a tremendous amount of value could be created there.” says Hughes. “Our full-service model offers a highly integrated services chain that allows us to reduce costs, efficiently speed up time-to-market, increase client responsiveness, and ultimately deliver a superior return to the investor base.”

Seyon Management is based in Hudson, Massachusetts and at Seyon’s head office in Boston.
