How the construction industry is responding to COVID-19 - Robert Weisman

April 17, 2020 - Construction Design & Engineering

Robert Weisman
Vice President, Sales
BSC International, Inc.

What is the most important thing that your industry or your company is doing to help clients right now? During the time that employees are being forced to work remotely, BSC is working with their companies to design and manage the implementation of a safe and secure infrastructure to allow them to access the applications and information needed to provide business continuity and as seamless a work environment that is possible. This can include an evaluation of not only the office facility but can also include the environment/facilities of the remote users/employees.
