IFMA Boston Pops Up Live

October 02, 2020 - Owners Developers & Managers

The chapter has prided itself on our ability to adapt to the pandemic as it relates to programming providing our first of many virtual events within a week of the shutdown. In that time, we have delivered virtually our one day conference, our Awards of Excellence, FM roundtables, webinars, membership meet and greets and informal member pop ups. We've actually seen an increase in our FM engagement and member engagement across all membership types. But we know that seeing each other face to face is craved right now, so while the weather is still good we ventured out patio side in Waltham last week to have some peer to face networking. It was enjoyed by all!
