Integrated Builders completes 4,300 s/f clean room for GE

September 11, 2008 - Front Section

Integrated Builders, a construction management, design-build and general contracting firm, has completed construction of a 4,300 s/f Clean Room for GE Healthcare Bioscience at 14 Walkup Dr. GE Healthcare is a provider of transformational medical technologies and services that are shaping a new age of patient care. GE Healthcare is a unit of General Electric.

The project consisted of the construction of a Class 10,000 Clean Room within an existing space. Integrated Builders will work in collaboration with the architectural design firm Vision III Architects.

"The construction of the new Clean Room will help improve both research, as well as the daily function of GE's Westboro facility, said Jay Dacey, president of Integrated Builders. We're pleased to have completed this project successfully."
