2021 Women in Construction: Lauren Biddle, Project Accountant, Jewett Construction

March 26, 2021 - Spotlights

What are you most looking forward to post-pandemic? Showing off my 14 month old daughter and getting to visit with friends and family!!

Why should women consider a career in construction? The ability to add a different perspective could change what has been a male dominated industry! More women sharing their ideas and voices inspires others to share theirs.

Starting out in the construction business, who or what empowered you? Being a woman and a pregnant woman (first time in 15 or so years that anyone here at Jewett Construction had been pregnant), the staff and executive team treated me with the care and consideration and made me thankful for choosing this company!
