What was your greatest professional achievement or most notable project in the last 12 months?
Jewett Construction launched a series of four beautiful videos featuring our projects, our clients, and

our amazing team. Through this launch and future growth of the company, Jewett Construction moves forward as an industry leader in the design-build space dedicated to delivering projects on time and on budget. If you haven't seen them, I recommend you check them out!

Why should women consider a career in construction? Women are natural problem solvers. Do you love a challenge? Then a career in construction would be perfect for you. Whether you're in the field or meeting with other project stakeholders, careers in construction are very active and involve engaging in conversations to solve problems.
