2022 Women in Construction: Molly Straut, Architectural Designer at Patriquin Architects

March 25, 2022 - Spotlights

Molly Straut

What tips or advice would you offer to other women who are considering entering the construction industry? It can be easy to doubt yourself when entering a field largely populated by men; my advice for any women who are considering entering the construction industry is to trust your own abilities and intuition. While the field of construction has come so far I think there are still people living in the past, don't let that cause you to second guess yourself whether it's looking for the right job or leading a meeting.
