Connors joins Hancock Associates as regional engineering manager

September 30, 2022 - Front Section

Newburyport, MA According to Hancock Associates, Matthew Connors, PE has joined the firm as regional engineering manager. Connors will be assisting Joe Peznola, PE, the firm's director of engineering, in managing Hancock's eastern engineering operations. He is based in Hancock's office at 1 Harris St.

Connors has nearly 30 years of experience in site/civil engineering, project management and construction administration, with particular emphasis on developments with excessive environmental constraints. His experience is broad-based and includes design, specifications, management and permitting of projects in MA, NH, ME, RI, NJ, PA and AZ, covering residential, commercial, institutional, municipal, sub-division, utility and wetland projects. Connors' technical expertise includes hydraulics, hydrology, pump stations, water distribution modeling and storm/sewer collection modeling; local, state and federal permitting; and wet utility design and construction.

Connors was a former project manager at Hancock. Prior to his return to Hancock as regional engineering manager, Connors was an associate at Engineering & Land Planning Associates, Inc. in New Jersey. He has a Masters in Business Administration from Boston University and a Bachelor of Science in Civil Engineering from the University of Massachusetts Lowell.

Connors is a licensed Professional Civil Engineer in Massachusetts, New Hampshire, Maine, New Jersey, Pennsylvania and Arizona and is a member of the American Society of Civil Engineers, Boston Society of Civil Engineers and the U.S. Green Building Council. He is a resident of Groveland, Massachusetts.

"I enjoy working with clients and staff to build something that will better communities and future generations," said Connors. "I came back to Hancock to continue doing great work with exceptional people."

"I am so glad to have Matt return to Hancock and join our management team," said Wayne Jalbert, Hancock's president. "He brings an exceptional blend of engineering, technology and management skills to Hancock and will bolster our organization into the future."
