Spectrum Integrated Technologies wins 2022 NECA Project Excellence Award for Boston Beer Co. project

October 28, 2022 - Front Section

Boston, MA Spectrum Integrated Technologies (Spectrum IT), the tel/data and security system division of J&M Brown Company, Inc., was recognized by the National Electrical Contractors Association with the 2022 NECA Project Excellence Award in the Low Voltage/Technology category for its Boston Beer Co. nationwide integrated security project.

NECA established the Project Excellence Award program to showcase the exceptional work its members perform throughout the country. Spectrum IT was recognized for its Boston Beer security project at the NECA 2022 national convention in Austin, TX.

The project scope entailed Spectrum's design, engineering, installation, integration and commissioning of security systems at Boston Beer Company's headquarters facility, as well as at

the company's Sam Adams breweries and tap rooms in Boston, Ohio, Pennsylvania, and New York. The project also included comprehensive security system installations at Boston Beer's Angry Orchard brand brewery and tap room in Walden, NY; Dogfish Head breweries and tap rooms in Miami, FL and Milton, DE; and at the Angel City Brewery/Truly LA for the company's Truly LA seltzer brand. All security systems tie-in to Boston Beer headquarters.

Spectrum IT director Steve Feldman said, "Being recognized by NECA nationally for the Boston Beer Company security system project is truly an honor. Spectrum is proud to partner with Boston Beer and Sam Adams in expanding and integrating the company's state-of-the-art security system at locations throughout the U.S. The project required extensive planning and a cooperative effort between the Spectrum IT and the Boston Beer/Sam Adams management teams, coupled with reliable support from our security system vendors and subcontractor partners throughout the country."
