

Menzin, principal & executive vice president of Samuels & Associates. “This milestone was made possible by the remarkable skill and hard work of the team on the ground, and that’s why it was important for us to celebrate the workers who made this all happen.”

Approved by the Boston Planning and Development Agency in 2019, the transformational project establishes a destination at the Newbury St./Mass Ave. intersection, improves the pedestrian and bicyclist experience, upgrades the MBTA bus station and subway headhouse, and creates over half an acre of publicly accessible open space consisting of a civic plaza and an elevated landscaped plaza. The project also offers a world class approach to sustainability and positive economic impact, including: 2,750 permanent on-site jobs spread among the office, retail, restaurant and hotel uses, and 1,100 construction jobs. CarGurus is the anchor tenant for the commercial office space and citizenM has been named as the hotel operator.
