Metro Walls receives two ABC NH/VT Excellence in Construction awards

December 09, 2022 - Northern New England

Manchester, NH Metro Walls, a leading wall and ceiling contractor in New England, was recently recognized at the Associated Builders and Contractors New Hampshire/Vermont Chapter's (ABC NH/VT) Excellence in Construction Awards with two Excellence Awards.

Metro Walls received the Excellence Award in the Commercial \$2-\$5 million category for their role in the completion of EMD Serono's Horizon Building in Billerica, Mass. Their craftsmanship working to frame and hang elaborate finishes throughout the space, along with their extensive coordination with the project team to overcome challenges due to the pandemic, manpower, and supply disruptions, played an enormous role in the success of this project. In addition, their ACT division completed a large scope of work for the project, including ceiling clouds, acoustical wall panels, and Tectum Finale ceiling panels which were installed in the 32-ft.-tall concourse space. The 149,000 s/f, four-story biopharmaceutical R&D facility, which also received LEED Gold and WELL Platinum Certifications, is comprised of flexible wet lab space, collaborative open office space, conference

rooms, and concourses with a café.

In that same category, Metro Walls was also awarded an Excellence Award for their role in the Lincoln Lofts project, located in Biddeford, ME. Metro Walls' ability to safely complete the labor-intensive scope of work in this 1850s mill brick building, while collaborating and coordinating with the other trades, required patience and the ability to constantly adapt to challenges that arose due to the age of the building. The work completed is a testament to Metro Walls' extraordinary customer service, dedication to safety, and high-quality workmanship. The five-story, 305,000 s/f mill building includes 180,000 s/f of 148 luxury loft rentals, a fitness facility, a rooftop terrace, and a restaurant, which will contribute to the future growth and expansion of Biddeford's local community and economy.

The Excellence in Construction Awards (EIC) honors contractors for their complex, innovative, and high-quality construction projects measured by criteria including safety, complexity, attractiveness, challenges overcome, cost, and completion time. The EIC awards recognize all members of the construction team, and the winning projects were selected by a panel of judges made up of industry experts.

"We are excited to be recognized for our work on these two unique projects with Excellence Awards from ABC NH/VT," said Bryan Hussey, president of Metro Walls. "We are extremely proud of this accomplishment and humbled to be recipients of this distinguished award alongside many of our industry peers. Congratulations to all the winners of this year's 2022 Excellence in Construction Awards."
