What tips or advice would you offer to other women who are considering entering the construction industry? Be authentic. Being true to yourself is the best way to be comfortable and confident in any situation. Know that you have the skills to do your job. If you have questions, ask them. Keep learning and evolving, and never doubt that you can accomplish any task you put your mind to. Seek out a mentor and lean on them. Never be afraid to speak up and let your voice be heard. With a strong support system and the proper mindset, you will flourish.
