Director of Project Development

Timberline Construction Corporation

What was your greatest professional achievement or most notable project in the last 12 months? A recently completed 225,000 s/f e-commerce distribution center was one of my notable projects. There were upfront challenges during the enabling phase that consisted of municipal infrastructure upgrades, major demolition remediation, and the challenges of construction on a very tight urban site requiring structural piles and a roof level parking deck. Working with the team we found creative solutions during the preconstruction process, site, logistics and overall program for the project to meet schedule and budget goals.
