2023 Women in Construction: Molly Straut, Patriquin Architects

March 31, 2023 - Spotlights

Molly Straut
Architectural Designer

What made you interested in seeking a career in the AEC industry? Growing up I became very passionate about design, social equity, and caring for the environment. I found an intersection of these passions within architecture. Architecture plays a huge role in shaping the experience of our everyday lives; I love that architecture can help foster community and connection through care in design. It will continue to be an essential part of creating a sustainable future with our environment, and these are aspects that I enjoy and am proud to be a part of.
