This tournament is a large attraction for the life science industry in Mass. and throughout the nation.

drawing golfers, along with many others that will join the event after golf for food, beverages, awards, raffles, and a silent auction. A portion of the golf fee and all the silent auction proceeds will go directly to Project Onramp.

The life sciences industry is breaking down barriers by creating opportunities for underserved and minority populations in Massachusetts, New York, San Diego, and Philadelphia. While it can be difficult for students from these populations to gain access to internships, Project Onramp works with companies to enable these students to get that first experience.

Galaxy Life Sciences, LLC of Webster, MA in collaboration with Galaxy Links, LLC who purchased the country club in December of 2022 coordinated the event with ISPE WIP, EDEI and Project Onramp.
