2023 Ones to Watch Rising Stars: Jacqueline Maloney, Kaplan Construction

May 26, 2023 - Spotlights

Jacqueline Maloney
Project Manager

Kaplan Construction

Number of years at firm: 4

One thing on my bucket list: Skiing in Japan

When I am not working, I am: Skiing, golfing, discovering a new restaurant, or playing board and video games

What recent project, transaction or accomplishment are you most proud of? I'm incredibly proud of building Castle Island Brewery in South Boston. Located in the historic former Cole Hersee manufacturing facility, the 9,500 s/f brewery features a tasting room adorned with a custom mural and focal wall, retail area, and private event space. Our collaboration with the ownership team and design team resulted in a unique and vibrant final product. It has been very rewarding to create a lively space that brings the Boston community together over delicious food and drink.

What makes this nominee a RISING STAR?

"Jacqueline is a rising star at Kaplan, bringing an analytical mindset to construction with her civil engineering and engineering management background (she's also Kaplan's resident "math whiz"). Her commitment to ethics is one of her best qualities, and she has demonstrated the highest standards of integrity and maturity during her young career." - Nathan Peck, President at Kaplan Construction
