Landry/French Construction and Waterstone Properties Group top off Rock Row's Medical and Research Campus

July 07, 2023 - Northern New England

Westbrook, ME Landry/French Construction joined Waterstone Properties Group on June 1, 2023 to celebrate the placement of the last steel beam on Rock Row's Medical and Research Campus building.

The Rock Row Medical & Research Campus, anticipated to be completed in 2024, will be anchored by New England Cancer Specialists, the largest medical oncology group and leading provider of cancer care in the region. RAYUS Radiology and Saco Bay Physical Therapy are anticipated to be among the other medical tenants at the new campus, which will include an array of integrated health services that are intended to deliver a more holistic approach to patients. The medical campus, designed with significant patient input, aims to bring its guests closer to nature by preserving the natural, wooded setting along Nason Brook and adding features such as outdoor infusion bays, a first for Maine, a healing garden and access to the new trail network.

Josh Levy, principal of Waterstone Properties Group, developers of Rock Row said that The Dempsey Center will be moving into Rock Row when the Medical & Research Campus opens next year, bringing a host of holistic programs and support to people impacted by cancer.

"Landry/French takes great pride in serving as the construction manager on this important project alongside Waterstone Properties Group, the design team partners, and the vital caregivers who will deliver best-in-class healthcare at Rock Row," said Denis Garriepy, chief operating officer of Landry/French Construction. "We all share a common goal — a healthier Maine."
