The warehouse addition is 110,000 s/f with an eave height of 42 ft. pallet racking occupies 80% of the space and is spaced 6 ft. apart to accommodate a mobile robotic lift. Shipping and receiving includes 12 loading docks with air operated levelers and electronic dock restraints. Vehicles and vans can access inside the building up a ramp and thru an overhead door. The interior fit-up included restrooms, kitchen, break area and employee lockers.

The \$10 million project started in March 2022 and was ready for rack delivery by early February 2023.

Early awards and constant monitoring of supply chain materials and equipment, along with top notch subcontractors, enabled the project to meet the milestones and deadlines.

DAI continued to service SWK in each of their York expansions including retail store, café, office addition, production improvements and warehouse expansion.
