DECCO, Inc. joins Comfort Systems USA

November 03, 2023 - Northern New England

Kyle Reagan

Nashua, NH DECCO, Inc. has joined the Comfort Systems USA network, a building and service provider for mechanical, electrical, and plumbing building systems. This partnership will enable DECCO to accelerate its growth and expand its reach across all business platforms, including DECCO Construction, DECCOServ, DECCOFab, and Critical Equipment Handling.

“We have worked hard to position our company to do bigger and better things for years to come, and joining forces with Comfort Systems USA was the perfect partner for DECCO’s growth,” said Kyle Reagan, DECCO’s CEO.

3D Virtual Design Solutions

“Our search began in finding a partner that shared our core values — partnership, excellence, ethics, commitment, and servant leadership —and we are excited for the future and for what we can offer our clients as we look to create opportunities for our partners and expanded services for our clients.”

By leveraging Comfort Systems USA’s service model, DECCO aims to enhance its capabilities and offerings to better serve clients across the region and country. DECCO recently expanded its services with the opening of a new High Purity Processing Facility, as well as the launch of its Clean Utility Service Program (CUSP). These new additions to its DECCOServ group will enable it to offer even more comprehensive solutions to national clients.

As a member of Comfort Systems USA’s network, DECCO’s full-service design and fabrication group, DECCOFab, will provide more custom fabrication solutions to clients nationwide. DECCO Construction will be able to broaden its scope of services by exploring project partnerships for the advanced industries in the New England region. Furthermore, their critical equipment handling group will offer equipment storage and specialized rigging services to a much larger market. These moves reflect DECCO’s commitment to delivering top-quality services and solutions while providing career advancement opportunities for its partners.
