Our New England Chapter gathered in Denver on October 28-30 for CoreNet Global's North America Summit. The summit focused on the power of perspective, zooming in on the ability to navigate change, disruption, and uncertainty in a world that has become increasingly turbulent and volatile. The two-day annual conference welcomed CoreNet members from around the world, and was comprised of multiple panels, presentations, and networking opportunities. More than 85 of our New England Chapter members joined the more than 2,000 total attendees, and we were so proud to have nine of our New England Chapter members lead or participate in various panels and presentations.
