Boston, MA JLL Capital Markets has arranged a \$75 million credit facility on behalf of a joint venture between Sendero Capital and Angelo Gordon that was formed to target the medical property sector.

The credit facility is seeded with four assets totalling 201,369 s/f in Connecticut, Rhode Island and New Hampshire. The seed portfolio totaled nearly \$30 million in initial loan proceeds, with a \$45 million accordion feature for the acquisition of additional medical properties.

The credit facility provides Sendero Capital and Angelo Gordon's programmatic joint venture – which allows for up to \$300 million in investments in outpatient healthcare real estate – flexibility and certainty of execution in a challenging credit environment. The joint venture is focused on value-add and core plus outpatient medical office and surgery center assets throughout the Northeastern United States – a region with high barriers to entry, strong growth, and one of the largest concentrations of healthcare businesses in the U.S.
