2023 Year in Review: Daniel Chauvin, NSG Life Safety

December 29, 2023 - Spotlights

Daniel Chauvin
President
NSG Life Safety

What person, project, transaction, or market trend had the greatest impact on your industry this year?

The emergence of In-building (layer 1) Mass Notification systems in the educational use group has proven to be the largest opportunity in the Life Safety Industry. The emerging demand and associated technology has created the need for the next level of Life Safety Professional.

What was your greatest professional accomplishment or most notable project, deal, or transaction in 2023?

In 2023, NSG completed the Cleveland Rudman Federal Courthouse project in Concord N.H. This GSA design build fire alarm project was awarded to our team based on our years of experience, qualifications, and history of performing in the Federal space. Being selected and ultimately completing this project, is a game changer for NSG Life Safety!
