2024 Women in Construction: Tetiana Likhanova, Jewett Design

March 29, 2024 - Spotlights

Tetiana Likhanova
Architectural Job Captain

Jewett Design

What was your greatest professional achievement or most notable project in the last 12 months? This last year was filled with many interesting projects in our studio! It's exciting to see automotive brands developing new identities. For me, it's a great pleasure to help our clients to navigate the change, find the most effective ways to design their spaces – new or renovated – so they can be used to their most potential. This year I came to experience the power of teamwork and collaboration between departments in our design-build firm. I see my personal growth in design and project management.

I am also responsible for creating renderings for our design team. We had many great projects in the conceptual design phase, and I believe visualization is a great tool that helps our client to envision their future building and communicate the ideas to other stakeholders and authorities.
