2024 Women in Construction: Keihly Moore, Studio G Architects

March 29, 2024 - Spotlights

Keihly Moore
Architect & Sustainable Design Coordinator

What was your greatest professional achievement or most notable project in the last 12 months? E+ Highland, an energy positive project in Roxbury's Highland Park, is a project I am greatly proud of. We received the Equity and Inclusion Award at Built Environment Plus's annual Green Building Showcase in 2023 for its commitment to sustainability, equity, and inclusion. The project is a 100% affordable multifamily building that will be Passive House certified and produce more energy than it uses. The project also features a unique ownership structure that allows the residents to build equity. It is designed to be all-electric, achieve LEED Platinum, and receive the ILFI Zero Energy Certification. E+ Highland will begin construction this year.
