2024 Women in Construction: Meryl Nistler, Studio G Architects

March 29, 2024 - Spotlights

Meryl Nistler
Senior Project Manager

What was your greatest professional achievement or most notable project in the last 12 months? Notable projects are ones that resonate beyond the physical building. This past year, I have begun designing the Gregg House Early Education Center, a childcare center for a vulnerable population. The project strives to create a safe space for infants through preschoolers and their families by providing resources to give these children the best start possible. The educators provide nurturing and exceptional care, while the architecture provides the happenstance for special memorable moments; a quiet nook, an exciting staircase, or biophilic feature connecting the occupants with nature. This meaningful work brings me joy by creating an impact for future generations.
